About Us

About Us

Who We Are

Horizon Laboratories is one of the leading and renowned diagnostics companies in the North West Province.

The Company enjoys a loyal customer base, reflecting its strength as a brand offering superior diagnostic tests and services.

With its widespread operational network, Horizon Lab offers a comprehensive range of clinical laboratory tests and profiles. These tests and profiles are used for prediction, early detection, diagnostic screening, confirmation and/or monitoring of the disease.

Horizon Laboratories plays a pivotal role in raising the bar of diagnostic accuracy, customer experience and research-driven empathetic service in the industry.

More than 70% of medical decisions today are based on diagnostic reports. Our Team of Technologists and Technicians are constantly in touch with Clinicians, work closely together and help them diagnose and make treatment decisions for their patients. Be it a simple blood sugar test or a complicated molecular genetic test, we have built in all the capabilities to deliver the absolute best.

Mission and Vision

Our Mission

To be the undisputed leader by providing accessible, affordable, timely and quality healthcare diagnostics, applying insights and cutting-edge technology to create value for all stakeholders.

Mission and Vision

Our Vision

To be the most trusted Healthcare partner, enabling healthier lives

We offer mobile services on an appointment basis both at the comfort of your home and place of work.

Tests Offered

Tests Offered

Horizon Laboratories is Equipped to perform a wide range of tests, we work towards accreditation by a number of accreditation authorities:

Clinical Chemistry

Clinical chemistry (also known as chemical pathology, clinical biochemistry or medical biochemistry) is the area of chemistry that is generally concerned with analysis of bodily fluids for diagnostic and therapeutic purposes. Several list of tests that helps diagnose various organs e.g., kidney functions, liver functions fall in this field of Laboratory.

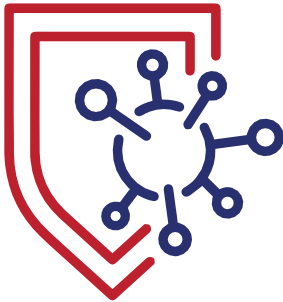

Haematology

This is the field involved in the diagnosis and clinically managed disorders of the blood and bone marrow. Various tests are done to support diagnosis of any blood related illness e.g., leukaemia bone marrow issues coagulation disorders amongst many. With the help of our always present Pathologist, all films are thoroughly double-checked to ensure preciseness in diagnosis.

Tests Offered

Tests Offered

Horizon Laboratories is Equipped to perform a wide range of tests, we work towards accreditation by a number of accreditation authorities:

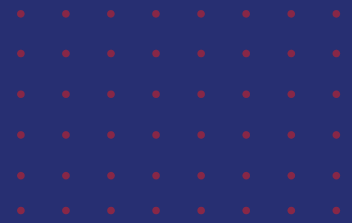

Immunology

The branch of biomedicine that is concerned with the structure and function of the immune system, innate and acquired immunity, and laboratory techniques involving the interaction of antigens with antibodies.

Microbiology

This is the field involving the study of micro-organism majorly bacteria. This discipline includes fundamental research on the biochemistry, physiology, cell biology, ecology, evolution and clinical aspects of microorganisms, including the host response to these agents. With the Help of the qualified Technologist, we have a vibrant up to date standard operating procedures in the cultures isolation of bacteria and ensuring the achievement of drugs of choice in the treatment of the same.

List of Tests We Do

Haematology

- PCV
- PBF
- ESR
- Malaria – QBC
- Malaria Ag Strip
- Coombs direct
- Coombs indirect
- G6PD quantitative
- Coagulation profile (TBC,APTT,BT,CT,INR)
- Bleeding and clotting time
- Bleeding Time
- Clotting Time
- APTT
- INR
- D- dimers
- Lupus Anticoagulant
- Hb electrophoresis
- Blood Grouping

List of Tests We Do

Biochemistry

- UEC
- U/C
- ELECTROLYTES
- Urea
- Creatinine
- Uric Acid
- GFR

- Calcium
- CORRECTED calcium
- Phosphorous
- NA
- POTTASIUM
- CHLORIDE
- Magnesium

Hormones

- FSH
- LH
- Oestrogen
- Progesterone
- Prolactin
- Beta HCG
- TOTAL & FREE TETOSTERONE
- TOTAL TETOSTERONE
- FREE TESTOSTERONE
- Cortisol (am/pm/random)
- Insulin
- PTH
- AMH

HIV monitoring

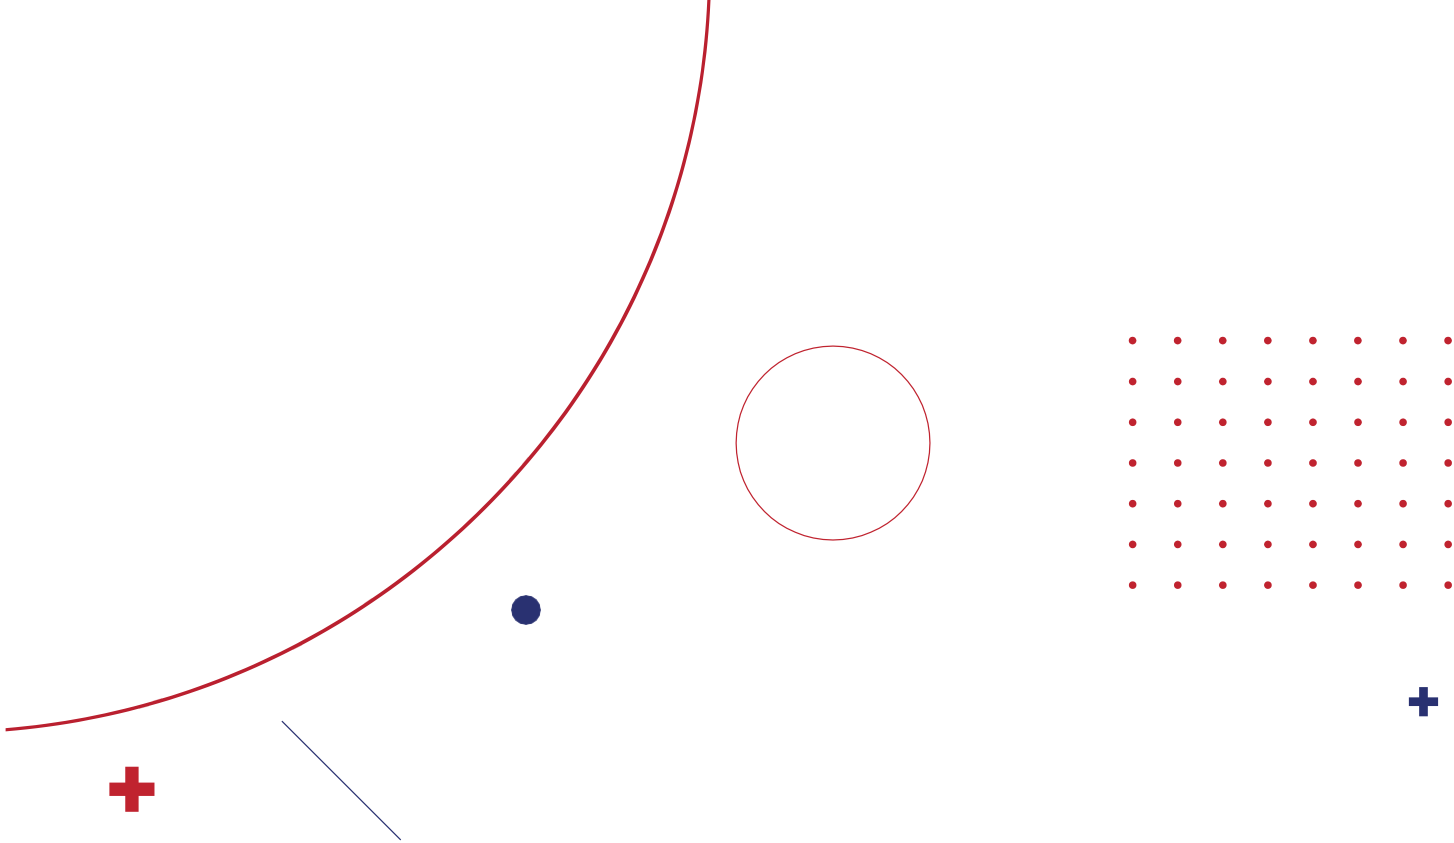

- HIV 1 & 2
- CD4 / CD8 COUNTS
- HIV DNA PCR
- HIV VIRAL LOAD
- HIV RESISTANCE TESTING

Other Infectious Diseases

- HPV DNA PCR
- Toxoplasma IgG
- Toxoplasma IgM
- CMV antibodies IgG
- CMV antibodies IgM
- HSV 1 IgG
- HSV 1 IGM
- HSV 11 IGG
- HSV 11 IGM
- HSV 1&11 Ig M
- EBV Antibodies
- Rubella antibodies IgG
- Rubella antibodies Ig M
- Mumps antibodies IgG
- Mumps antibodies IgM
- Measles antibodies Ig G
- Measles antibodies IgM
- VDRL

COVID Testing

Covid-19 PCR
Covid- 19 Antigen
